Whew! Busy Village....now for some other news.

The Village Board is thrilled to announce Tivoli just won another Community Development Block Grant! This time in the amount of \$95,000 for our proposal "Pine Street Improvements Phase II." This is federal money distributed through counties to municipalities and due to recent Federal budget battles it is unclear when the money will reach us. In any case, the project will allow us to replace the old, existing sidewalk along the south side of Pine St., improve drainage with an innovative bio-swale and add a number of new trees along the street!

The Dutchess County Department of Public Works has recommenced work on the Broadway Bridge. The lamp posts and lights are going up and the stone cladding is being added to the parapets. Unfortunately this work will require the closing of the sidewalk for two to three weeks. Please use caution walking and driving over the bridge during the work. We look forward to the completion of this long project which fortunately only happens once every 80 years!

Tivoli's New "Garbage Can" Law in Tivoli takes effect March 1st, 2018!

In response to years of garbage/recycling receptacles being left out at the curb, blocking the public roadways and sidewalks, creating safety concerns, and negatively impacting the charm and aesthetics of our community, the Village of Tivoli Board of Trustees updated Village Code Chapter 184: Solid Waste on January 21st, 2018. This law includes new rules which govern the placement of garbage/recycling receptacles in our Village. These rules apply to both Village collection and collection by the private haulers who service customers in Tivoli (Welsh, Waste Management, Royal Carting, etc.). Please read and follow these rules:

No garbage/recycling bags/receptacles shall be placed curbside prior to 6:00PM on the night before collection.

All garbage/recycling bags/receptacles must be removed from the curbside by 10:00PM of the day of collection.

At all other times receptacles must be stored out of public view, or if not feasible, behind the front building line, on the owner's property. (This means no cans stored in the front yard. Side yards and backyards are acceptable.)

Everyone must know the collection day of THEIR service, be it Village or private. Owners AND occupants (tenants) of a property can be held responsible.

Receptacles remaining near the curb, street, or sidewalk, outside of the approved time of collection can be removed and disposed of by the Village and/or result in a court appearance ticket and a possible fine of \$50. Each day of continuance of an offense shall constitute a separate offense.

Please take responsibility for the receptacles you use, pull those receptacles back to the side/rear of your home, keep our sidewalks clear and open for pedestrians, and the public view-shed free from garbage cans the other 6 days of the week. Thank you!

We hope to see you at some of the many events coming up and have a safe and happy spring!
